TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 12

May 1970 - April 1971

	Month	Page
A case study of Stevenage, Prof. Anthony Goss and Jeremy Alden	June	91
Accident analysis by computer, J. R. Steel	Sept.	251
Accident prevention in London by road surface improvements, L. W. Hatherly and D. R. Lamb	Feb.	524
A motivational enquiry into car use, Conal Stuart Riley	Aug.	192
A note on speed-road curvature relationships, J. Emmerson	Nov.	369
A parametric analysis of European urban public transport, L. J. S. Lesley	Mar.	584
A programme budgeting approach to motorways and strategic choice, B. Oldridge	Apr.	628
Area traffic control for central London, K. W. Huddart and M. J. H. Chandler	Sept.	233
BUXI demand-responsive bus operation in the Netherlands, Guert Hupkes	Mar.	568
Car parks: design and construction, Focus on:		
The use of simulation to evaluate alternative multi-storey car park designs, R. A. Bourton, P. W. Miller and A. M. Sutton	Apr.	619
A survey of parking in European cities, John Glanville	Apr.	621
Conference reports:		
Universities Transport Study Group. Second Annual Conference, Jan. 1970. Cranfield. Report by J. M. Clark	May	38
North-Eastern Branch, Inst. of Highway Engineers. Newcastle. March 1970, Report by A. H. Rhodes	May	39
International Symposium on Traffic Control, Versailles, June 1970, Report by the Editor	July	141
Snow removal and ice control research, Hanover, New Hampshire, April 1970		
Tenth International Study Week in Traffic and Safety Engineering, Sept. 7-11, Rotterdam	Oct.	327
APLE Oct. 1970	Nov.	385
Convergence of the traffic assignment process, T. E Weaver and T. D. Riley	Mar.	572
Courses in Traffic Engineering	Aug.	194
Curve designs for turns at intersections, Ivar Schacke	Sept.	256
Data collection for transport studies in Staffordshire, R. M. Newland	Mar.	576
Design capacity for urban roads, Edward Smith	Aug.	182
Dial-a-Ride demand actuated public transport, P. R. Oxley	July	146
Dial-a-Ride in Mansfield, Ohio	Mar.	589
DoE's guidance on traffic signals	Jan.	484
Driver behaviour equations: some limits on their solution due to vehicle dynamics, P. A. Lewis	Dec.	414
Editorial Opinion:		
Intractable public transport	May	13
Roads for the future	June	65
Election aftermath	July	121
Transport training facilities	Aug.	177
Buchanan on London's Plan	Sep.	277
Tenth Study Week	Sep.	277
Transport conferences	Oct.	299
Montreal aftermath	Nov.	361
Transport 1970	Dec.	409
Transport 1971	Jan.	453
Urban motorways and the environment	Feb.	503
Transport within municipal reform	Mar.	567
Transport in the environment	Apr.	611
Effect of maximum motorway gradients on speeds of goods vehicles, L. W. Ackroyd and M. Bettison	Feb.	530
Effect on accidents of area traffic control in West London, A. D. J. Crook	May	30
Effectiveness of speed limits on rural roads and motorways, R. F. Newby	Dec.	424
Effects of changes in motorisation in various countries on the number of road fatalities, R. J. Smeed and G. O. Jeffcoate	July	150
Electronic simulator for quickest routes in a road network, J. M. Bullingham and P. A. Mathews	Sept.	240
Experiments on bus platoon dynamics, R. Herman, T. Lam and R. Rothery	Apr.	612
Factors affecting the design of transport interchanges, D. Maltby and C. N. Cheney	Apr.	625
Freeway surveillance and control systems in the United States, Adolf D. May	Sep.	248
General electronic equipment for recording vehicular events and speeds, P. F. Gardiner	Jan.	464
Gloucester's Traffic and Transport Plan – fair treatment for the pedestrian? R. H. King and R. M. Egland	Jan.	456
Inductance loop detectors for automatic vehicle traffic counting: trials in Gloucestershire, D. R. Jones	Sep.	236
Introduction to transportation planning, G. M. Lamb		
(5) Assignment and restraint	May	32
(6) Evaluation and conclusions	June	88
Legal Notes:		
Delay and the traffic engineer's responsibility	June	95
Guarding against an expensive strike	July	157
Removing white lines and the Ministry's responsibility	Aug.	193
Lessons which have been learnt since the first OTA Study Week, M. H. Perlowski	Sep.	261
Motorway communications	Jan.	480
Noise research and the Road Research Laboratory, D. G. Harland	July	122
North American impressions, W. R. Gregory	Sep.	266
Parking, Focus on:		
Car parks and fire, G. B. Godfrey	Nov.	376
Fire and car park buildings, E. G. Butcher	Nov.	377
Fires and multi-storey car parks – Symposium report	Nov.	379
Effect of parking policies on traffic volumes, G. Bentfeld (OTA)	Nov.	380
Parking control systems, Focus on:		
Time-lapse photography applied to a parking duration survey, G. K. Benn	Mar.	581
Pedestrian traffic in town centres, J. Th. Gantvoort	Jan.	454
Planning and transport models for the South Hampshire Plan, T. Rhodes and A. J. Wilson	Dec.	434
Progress Report 1970. Research Group in Traffic Studies, University College London, R. J. Smeed	Feb.	536
Public transport priority at a signal-controlled junction: An experiment in Bern, Switzerland, R. A. Vincent and K. Hoppe	Dec.	417
Recreational travel in urban and rural areas, J. R. Duffell and C. M. Peters		
(1) A comparative evaluation of some recreation studies	Apr.	616
Results of Reading bus lane experiment, Terence Bendixson	Aug.	188
Road construction in the USSR, A. A. Nadezhko and V. A. Stankevich	Dec.	432
Road safety, Focus on:		
Introduction, K. Summerfield	June	78
Devices for impact attenuation, F. J. Tamanini and John G. Viner	June	79
Number of accidents per day and times between accidents, Roger A. Chapman	June	82
Intensity requirements for daytime running lights, L. Ellis King and Prof. D. M. Finch	June	84
Air-bag restraint systems	June	86
Road signs and markings, Focus on:		
Introduction, Kenneth Summerfield	Feb.	515
Road markings, priority signs and speed limits, M. Frybourg	Feb.	516
A laboratory comparison of symbol and word roadway signs, L. Ellis King	Feb.	518
Awareness and evaluation of horizontal road markings	Feb.	521
Role of transportation in the cities of the future, Constantinos A. Doxiadis	May	18

	Month	Page
Snow and ice, Focus on:		
Snow removal and ice control research	July	144
Road heating systems	July	145
Some effects of lag and gap acceptance distribution on average delay at priority intersections, R. J. Salter	Aug.	178
Speed and lane signals on Danish motorway, B. P. Nielsen	May	34
Street lighting, Focus on:		
Lighting of the Midland Links motorway, J. T. Duff and M. J. L. Goodwin	Oct.	329
Recent developments in methods of improving night visibility, J. B. de Boer	Oct.	331
APLE Exhibition preview	Oct.	335
Swedish streets are centrally heated	Jan.	463
Systems for the automatic control and monitoring of bus services, David Stone	Dec.	410
The Cabtrack urban transport system, M. G. Langdon	Apr.	634
The development of Lancashire's (1949) road plan, James Drake and E. Ogden	Oct.	307
The feasibility of holographic traffic signs, R. H. Clarke	Aug.	190
The future proportions of non-car owning and multi-car owning households, Katherine B. Pailing and William Solesbury	Sep.	244
The Parking Authority of Toronto, Robert G. Bundy	Sep.	262
The preparation of a traffic and transport plan, T. E. Rae	June	66
The Third London Airport surface-access model, R. C. Carruthers and H. M. Dale	Feb.	504
Tidal flow in Portsmouth, M. H. W. Page	Jan.	473
Toronto's digital computer signal system, S. Cass	Jan.	460
The Traffic and Environment Analyser, D. H. Crompton and Dennis Gilbert	July	152
Traffic and the environment, D. H. Crompton and Dennis Gilbert	Oct.	323
Traffic at manufacturing plants, D. Maltby	June	72
Traffic control computer system 16000, Achim Musiol and Dietrich Kohnert	Feb.	510
Traffic control on urban motorways in the United States, A. D. May	Nov.	370
Traffic control systems, Focus on:		
Area traffic control by computer in Madrid, A. Valdes and Sebastian de la Rico	July	132
The operation of the inductive loop vehicle detector, J. R. Head	July	135
Modern developments in traffic control equipment, K. P. Robinson	July	139
International Symposium on traffic control	July	141
Traffic engineering in the '70s, G. R. Leake	June	94
Traffic engineering instruments, Focus on:		
General electronic equipment for recording vehicular events and speeds, P. F. Gardiner	Jan.	464
Equipment for traffic engineers – 1971 review, N. A. Pain	Jan.	467
Traffic flow characteristics in Coventry, A. H. Harrison	July	126
Traffic flow patterns at a rural motorway location, L. W. Ackroyd and J. C. Abbiss	Nov.	373
Traffic generated by hotels in central London, B. G. Redding	Nov.	366
Traffic restraint policy, R. Hodgen	Aug.	199
Traffic signal control methods in West Germany, Hans-Georg Retzko	Oct.	318
Traffic signs and markings in the German Democratic Republic, Siegfried Kirchner	Oct.	316
Traffic speed behaviour at a rural motorway location 1968-1970, L. W. Ackroyd and M. Bettison	Dec.	421
Transport and the environment, Rt. Hon. Anthony Crosland, MP	May	14
Transport developments in Australia, P. G. Pak-Poy	May	23
Transportation and the environment, Wilbur S. Smith	Oct.	312
Transportation in the '70s. John A. Volpe	Oct.	304
Trip generation techniques, A. A. Douglas and R. J. Lewis		
(1) Introduction	Nov.	362
(2) Zonal least-squares regression analysis	Dec.	428
(3) Household least-squares regression analysis	Jan.	477
(4) Category analysis and summary of trip generation techniques	Feb.	532
Use of census data in transportation planning – a further note, J. T. A. Hunter and S. R. Shearsmith	Aug.	186
What constitutes a safe road, V. F. Babkov	Oct.	321

INDEX TO AUTHORS

Ackroyd, L. W. and J. C. Abbiss – Traffic flow patterns at a rural motorway location	Nov.	373
Ackroyd, L. W. and M. Bettison – Traffic speed behaviour at a rural motorway location 1968-1970	Dec.	421
Effect of maximum motorway gradients on the speeds of goods vehicles	Feb.	530
Babkov, V. F. – What constitutes a safe road	Oct.	321
Bendixson, Terence – Results of Reading bus lane experiment	Aug.	188
Benn, G. K. – Time-lapse photography applied to a parking duration survey	Mar.	581
Bentfeld, G. – Effect of parking policies on traffic volumes	Nov.	380
de Boer, J. B. – Recent developments in methods of improving night visibility	Oct.	331
Bourton, R. A., P. W. Miller and A. M. Sutton – The use of simulation to evaluate alternative multi-storey car park designs	Apr.	619
Bullingham, J. M. and P. A. Mathews – Electronic simulator for quickest routes in a road network	Sep.	240
Bundy, Robert G. – The Parking Authority of Toronto	Sep.	262
Butcher, E. G. – Fire and car park buildings	Nov.	377
Carruthers, R. C. and H. M. Dale – The Third London Airport surface-access model	Feb.	504
Cass, S. – Toronto's digital computer signal system	Jan.	460
Chapman, Roger A. – Number of accidents per day and times between accidents	June	82
Clarke, R. H. – The feasibility of holographic traffic signs	Aug.	190
Crompton, D. H. and Dennis Gilbert – The Traffic and Environment Analyser	July	152
Traffic and the environment	Oct.	323
Crook, A. D. J. – Effect on accidents of area traffic control in West London	May	30
Crosland, Rt. Hon. Anthony, MP – Transport and the environment	May	14
Douglas, A. A. and R. J. Lewis – Trip generation techniques		
(1) Introduction	Nov.	362
(2) Zonal least-squares regression analysis	Dec.	428
(3) Household least-squares regression analysis	Jan.	477
(4) Category analysis and summary of trip generation techniques	Feb.	532
Doxiadis, Constantinos A. – Role of transportation in the cities of the future	May	18
Drake, James and E. Ogden – The development of Lancashire's (1949) road plan	Oct.	307
Duff, J. T. and M. J. L. Goodwin – Lighting of the Midland Links motorway	Oct.	329
Duffell J. R. and C. M. Peters – Recreational travel in urban and rural areas		
(1) A comparative evaluation of some recreation studies	Apr.	616
Emmerson, J. – A note on speed-road curvature relationships	Nov.	369

	Month	Page
Frybourg, M. – Road markings, priority signs and speed limits	Feb.	516
Gantvoort, J. Th.–Pedestrial traffic in town centres	Jan.	454
Gardiner, P. F. – General electronic equipment for recording vehicular events and speeds	Jan.	464
Glanville, John – A survey of parking in European cities	Apr.	621
Godfrey, G. B. – Car parks and fire	Nov.	376
Goss, Anthony and Jeremy Alden – A case study of Stevenage	June	91
Gregory, W. R. – North American impressions	Sep.	266
Harland, D. G. – Noise research and the Road Research Laboratory	July	122
Harrison, A. H. – Traffic flow characteristics in Coventry	July	126
Hatherly, L. W. and D. R. Lamb – Accident prevention in London by road surface improvements	Feb.	524
Head, J. R. – The operation of the inductive loop vehicle detector	July	135
Herman, R., T. Lam and R. Rothery – Experiments on bus platoon dynamics	Apr.	612
Hodgen, R. – Traffic restraint policy	Aug.	199
Huddart, K. W. and M. J. H. Chandler – Area traffic control for central London	Sep.	233
Hunter, J. T. A. and S. R. Shearsmith – Use of census data in transportation planning – a further note	Aug.	186
Hupkes, Guett – BUXI demand responsive bus operation in the Netherlands	Mar.	568
Jones, D. R. – Inductance loop detectors for automatic vehicle traffic counting: trials in Gloucestershire	Sep.	236
King, L. Ellis – A laboratory comparison of symbol and word roadway signs	Feb.	518
King, L. Ellis and D. M. Finch – Intensity requirements for daytime running lights	June	84
King, R. H. and R. M. Eagland – Gloucester's traffic and transport plan – Fair treatment for the pedestrian?	Jan.	456
Kirchner, Siegfried – Traffic signs and markings in the German Democratic Republic	Oct.	316
Lamb, G. M. – Introduction to transportation planning		
(5) Assignment and restraint	May	32
(6) Evaluation and conclusions	June	88
Langdon, M. G. – The Cabtrack urban transport system	April	634
Leake, G. R. – Traffic engineering in the '70s	June	94
Lesley, L. J. S. – A parametric analysis of European urban public transport	Mar.	584
Lewis, P. A. – Driver behaviour equations: some limits on their solution due to vehicle dynamics	Dec.	414
Maltby, D. – Traffic at manufacturing plants	June	72
Maltby, D. and C. N. Cheney – Factors affecting the design of transport interchanges	Apr.	625
May, A. D. – Traffic control on urban motorways in the United States	Nov.	370
May, Adolf D. – Freeway surveillance and control systems in the United States	Sep.	248
Musiol, Achim and Dietrich Kohnert – Traffic control computer system 16000	Feb.	510
Nadezhko, A. A. and V. A. Stankevich – Road construction in the USSR	Dec.	432
Newby, R. F. – Effectiveness of speed limits on rural roads and motorways	Dec.	424
Newland, R. M. – Data collection for transport studies in Staffordshire	Mar.	576
Nielsen, B. P. – Speed and lane signals on Danish motorway	May	34
Oldridge, B. – A programme budgeting approach to motorways and strategic choice	Apr.	628
Oxley, P. R. – Dial-a-Ride demand actuated public transport	July	146
Page, M. H. W. – Tidal flow in Portsmouth	Jan.	473
Pailing, Katherine B. and William Solesbury – The future proportions of non-car owning and multi-car owning households	Sep.	244
Pain, N. A. – Equipment for traffic engineers–1971 review	Jan.	467
Pak-Poy, P. G. – Transport developments in Australia	May	23
Perlowski, M. H. – Lessons which have been learnt since the first OTA Study Week	Sep.	261
Rae, T. E. – The preparation of a traffic and transport plan	June	66
Redding, B. G. – Traffic generated by hotels in central London	Nov.	366
Retzko, Hans-Georg – Traffic signal control methods in West Germany	Oct.	318
Rhodes, T. and A. J. Wilson – Planning and transport models for the South Hampshire Plan	Dec.	434
Riley, Conal Stuart – A motivational enquiry into car use	Aug.	192
Robinson, K. P. – Modern developments in traffic control equipment	July	139
Salter, R. J. – Some effects of lag and gap acceptance distribution on average delay at priority intersections	Aug.	178
Schacke, Ivar – Curve designs for turns at intersections	Sep.	256
Smeed, R. J. – Progress Report 1970. Research in Traffic Studies, University College London	Feb.	536
Smeed, R. J. and G. O. Jeffcoate – Effects of changes in motorisation in various countries on the number of road fatalities	July	150
Smith, Edward – Design capacity for urban roads	Aug.	182
Smith, Wilbur S. – Transportation and the environment	Oct.	312
Steel, J. R. – Accident analysis by computer	Sep.	251
Stone, David – Systems for the automatic control and monitoring of bus services	Dec.	410
Summerfield, K. – Introduction to Focus on road safety	June	78
Introduction to Focus on road signs and markings	Feb.	515
Tamanini, F. J. and John G. Viner – Devices for impact attenuation	June	79
Valdes, A. and Sebastian de la Rico – Area traffic control by computer in Madrid	July	132
Vincent, R. A. and K. Hoppe – Public transport at a signal-controlled junction: An experiment in Bern, Switzerland	Dec.	417
Volpe, John A. – Transportation in the '70s	Oct.	304
Weaver, T. E. and T. D. Riley – Convergence of the traffic assignment process	Mar.	572
